My Dear Sister:

I am always glad to hear from any of my sisters or nephews and was pleased to get your letter of July 24th.

I was then in Washington studying up the life of Robt Fulton in whose memory Pa has erected a statue in the Old Hall of the House at the Capitol. I expect the Governor will present it to the U. S. next winter and when he does it will be necessary for at least one Senator to speak of the life & character of Fulton.

I have more work of this kind or other studies on public questions than I can do

Clara would like much to visit Plaunfeld again and I should be glad to have her do so; but she cannot do so now, if ever. Her school begins the last of this month and she has promised to visit her cousins Laid in Buffalo next week.

George will leave for Europe about the first of Sept in company with Bob Young of this place. They expect to be away 2 1/2 months.

Elisha & Alysa were with us last week and are now at Tom's. They go with Mother to Canton next week.

Give our love to your Papa and all the friends.

Very truly yours

W. Mitchell
